Note on

proposals for subjects

for COSAC 2008

Prepared by the COSAC Secretariat and presented to:

XXXVIII Conference of Community and European Affairs Committees of Parliaments of the European Union

> 15-16 October 2007 Estoril

Proposals for subjects for future COSAC meetings

Article 7.1 of the Rules of Procedure of COSAC states:

"Before the last ordinary meeting of each year the delegations shall indicate the subjects they propose be dealt with the following year."

Article 7.1 adds that the last ordinary COSAC meeting of the year shall discuss this matter. Article 7.1A stipulates that:

"The principal business on every draft Agenda shall be derived from COSAC's role as a body for exchanging information, in particular on the practical aspects of parliamentary scrutiny."

In accordance with these two rules, at the end of the XXXVIII COSAC meeting in Estoril in October there will be a discussion about which topics COSAC could deal with in 2008.

In order to inform this discussion, national parliaments were asked to suggest subjects COSAC could deal with in 2008. All in all 13 parliamentary chambers sent proposals to the COSAC secretariat. Several parliaments did not make any written proposals for subjects COSAC could deal with in 2008 or indicated that the topic would be dealt within the meeting itself. The table below groups the national parliaments' proposals by subject matter. The subjects most frequently proposed are at the top of the table.
